1. BACKGROUND

1.1. Introduction

African Security and Consultancy Limited (ASC) is a firm of security experts registered in Tanzania in the year 2010. The firm specializes in Training, Research and Consultancy in the Security industry both within and out of Tanzania. The firm is headed by a Managing Director who leads a team of experts carefully selected by virtue of their professional skills and enormous experience and excellence in security issues at national and international levels. The reason for choosing us lies in our team of consultants who have an extensive knowledge and practical experience in delivering solutions to problems and issues affecting the Security industry worldwide. We approach security as a multifaceted issue that requires knowledge and skills from social, economic, military, political, technological, health, environmental and many other facets of security.

We would carry out the proposed training assignment (Corporate Security management Training) that would help your organization to operate in a professional and effective way. We are therefore well placed to provide a high degree of excellence required for the envisaged training.

1.2. Brief Overview of the Training

Corporate Security Risk Management course provides the opportunity for participants to enhance their professional and career potential in security management. The course gives unique insights and comprehensive coverage of the management disciplines central to providing effective security management in the commercial environment. The course addresses a wide range of topics including: Vital Installation Security planning and Management, Security Risk Paradigm Shift, Proactive and security threat analysis to Vital Installation, Enterprise Security Risk Management, Managing Security Risk, Risk Management Policy Framework, Measurement and Identification of Risk (The Basis for Managing Risk), Terrorism, Crisis management and disaster recovery, Contingency planning (Business continuity) and Introduction to cyber crime and threats to vital installation. The course is designed to meet both the theoretical and practical management application, based on best practice principles, national and International standards. The course is delivered by professionals and senior security experts who have extensive experience in security management positions.

1.3. Training Approach

This training programme will be offered by Tanzania Police Force Headquarters (Vital installation unit) and delivered by ASC Ltd in Cooperation with Tanzania Police School (TPS) - Moshi as Co-Partners. ASC Limited will be a Coordinator and will provide a multi-disciplinary team with expertise in each of the areas critical to the success of training while Tanzania Police School will provide practical training and facilities for the training including quality assurance and certification.

We have clear understanding of the requirement and training needs on Corporate Security industry. We promise to offer a complete training solution which will meet your requirements, and will provide means of achieving major cost savings. ASC is therefore

confident that the proposed approach will provide a reliable and efficient training programme which will significantly give critical knowledge and understanding of corporate Security Management within a time scale and budget that can be agreed and achieved.

1.4. Objective of the Training

The objective of this training is to promote Corporate Security awareness, proactive intervention and security management for vital installation and its critical infrastructure. Equip participants with knowledge and skills in developing corporate security framework and administering an up-to-date, effective institution-wide security program.

1.5. Target Group
